

Katherine R. Henry

Minneapolis, MN • Henry794@umn.edu • (952)-334-0357 • She/Her

EDUCATION

University of Minnesota, College of Science and Engineering

Minneapolis, MN

Bachelor of Science, Computer Engineering

GPA: 3.0

Minor in Neuroscience

Anticipated Graduation: May 2027

Relevant Coursework: Calc I-II, Introduction to Microcontrollers, Computing and Programming, Computer Design Systems, Analog and Digital Electronics, Neural Engineering and more

SKILLS

Technical Skills: Python, Java, C, Project Management, Technical Writing, Verilog, Digital Design, Electrical Work

TECHNICAL PROJECTS

Array Chess Project, Introduction to Algorithms and Data Structures

September 2024 - April 2024

- Planned and designed a working chess game in Java using arrays and inheritance
- Each portion of the board and pieces had multiple functions to allow the game to run properly and smoothly
- Carefully debugged any errors to polish the overall project

TMP36 Sensor Design Project, Introduction to Digital System Design

January 2025 - May 2025

- Meticulously designed a signal processing peripheral that was implemented on a Basys3 board
- Developed a design using a XADC module to read analog voltage values from the TMP36, computing an average
- Verified result with Verilog, code testing and simulated waveforms using a Basys3 board to double check

WORK EXPERIENCE

Ecolab

Saint Paul, MN

Ecolab Development Summit

August 2025

- Attended a two-day Ecolab development summit after being invited through the application process
- Enhanced knowledge through learning about Ecolabs environmental mission, engineering initiatives and room for growth by participating in technological based seminars

Graduate Hotel by Hilton

Minneapolis, MN

Restaurant Server and Support Role

November 2023 – Current

- Multitasked during high-volume shifts to maintain high standards of service for all customers and guests
- Cross-trained in multiple roles to support the workflow of the staff as a whole
- Helped with and solved technological system issues to allow smooth service for all members of the staff

McCormicks

Wayzata, MN

Server

May 2024 – Current

- Went above and beyond to make sure customers had positive and curated experiences
- Operated POS systems and managed orders while helping coworkers to build a positive environment

ADDITIONAL EXPERIENCE

University of Minnesota

Minneapolis, MN

Society of Women in Engineering Member

October 2023 – Current

- Attend monthly meetings, events and seminars to learn more about local companies and the workings of the group
- Participated in the mentorship program and built a good relationship with a professional mentor
- Built meaningful relationships by attending professional events centered around engineering and technology
